

Annual Report Y2005

It is with a feeling of great satisfaction that we report that Y2005 has been a very productive and rewarding year.

We have surpassed previous year's performances in the number of services provided, additional services offered and in our success in enhancing the standard of living of the families involved through livelihood projects supported with a micro financing assistance fund.

All of this would not have been possible without the active support and participation of our sustaining members, donors, volunteer consultants, doctors, partners and participating hospitals.

The past year has again shown the generosity of donors as they willingly join and support our programs especially when they see the positive results that materialize.

We look forward to the Year 2006 as we implement programs that will further enhance our services and lead us towards our goal of providing full interdisciplinary craniofacial services through the establishment of a Craniofacial Center.

The following pages will present our reports on Services, Statistics, Donations, Partnerships, Commitments, Activities, Finances, Staff and Computerized Information System.

This report has been produced entirely by the staff of the Philippine Band of Mercy - *In the Service of the Child.*
