
RESOURCE DEVELOPMENT AND SUSTAINABILITY

To ensure that our present programs will be funded and to be able to introduce new and additional services and facilities we maintain an ongoing Resource Development program that monitors, maintains and secures funding for all our requirements. This program is an integral part of our organization headed by Mrs. Edna Bello.

At present we have the following sources for funds:

- 1) Rental Revenue from our Real Estate Property*
- 2) Interest from our Perpetual Endowment Trust Fund*
- 3) Grants from the National Social Development Fund*
- 4) Donations from our Sustaining Members*
- 5) Treatment Grants from our partner Smile Train*
- 6) Funding from the financial augmentation program of the PCSO Charity Fund.*

Our main thrust is for donations to our Perpetual Endowment Trust Fund. This fund is maintain by PBM with funds generated from rentals and augmented by donations. The principal of this fund is never touched. The fund is invested in long term government securities through our appointed trustee Bank of the Philippine Islands with instructions to remit 70% of interest earned to PBM and to reinvest the 30% also in government securities.

Donors can monitor that their funds are kept in perpetuity. Thus also providing assistance to the poor in perpetuity.

This fund will ensure the establishment of the PBM Craniofacial Center and sustain its operations.
